

Why South America- South America is one of the best destinations for students seeking admission in MBBS. **Duration is 4.5 Years** is one of the biggest benefit, **official language is English**, weather and disease pattern is same as India. **US Education pattern** is followed, this helps students to appear in **USMLE (required for clinical rotation in US)**, followed by **residency in US (equal to PG in India)**. As per MCI guidelines if students complete their PG in US, they **do not need to appear in MCI Screening Test (FMGE)**.

Taxila American University, Guyana - Indian Track (4.5 Years Duration)
